ITC Celebrating 30 Years of Excellence with new Branding and Website

**ELECTRICAL
COMPONENTS**

About ITC:

ITC Electrical Components, a family-run Canadian company that distributes electrical components for the control, automation and power industries, is celebrating its 30th year in business.

Our vice-president Luca Fontana founded ITC Electrical Components in 1994, armed with his industry knowledge, and operated it out of his house alongside his wife Irene, who is the company's president. The company has since grown to 16 employees and 12,000 square feet of office and warehouse space.

ITC imports high quality industrial components from a range of about 40 well known manufacturers. ITC now stocks more than 11,000 parts, and has established a tradition of excellent and fast service.

New Website

As part of our 30th anniversary we updated our website:

User-Friendly: Easy navigation ensures you can quickly find what you're looking for, whether it's product information, resources, or assistance.

Enhanced Features: With improved tools like an intuitive RFQ system, and a robust search function, finding what you're looking for has never been easier.

Mobile-Friendly: Access our full suite of offerings from any device, anywhere.

Extensive Resources: Explore catalogs, technical tables, and manuals tailored to make your work easier and more efficient.

Clear News Articles and Text: The design structure of the website and font makes it easier to read and digest information. We also have a News page with tons of recent technical articles and valuable resources, and we're always adding more.

Always Improving: From adding new features, to introducing new products, our website will continually evolve to better meet your needs.

Noark Ex9C Contactors

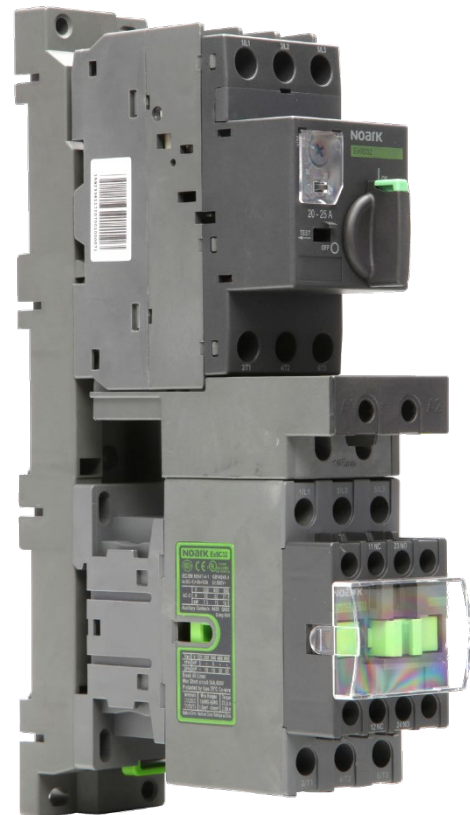

ITC introduces a new line of IEC contactors covering the range of 9 to 500A, available with both AC coils (24 to 600V) and with multi-voltage coils ('wide-range' 24-250 VAC/DC), equipped with up to 4 auxiliary contacts and certified cULus.

All corresponding accessories are available for this new series.

Features and Specifications:

- 9 to 500A
- AC coils 24 to 600V, multi-voltage coils (wide range) 24 to 250 VAC/DC
- 3 poles
- Up to 4 auxiliary contacts
- **IP rating:** IP20, finger safe
- **Approvals:** cULus

Techno Plug and Socket Connectors

We have expanded our Techno catalog of TEEPLUG - Plug and Socket Connectors. Many new models have been added to existing series and new series have been added.

Screwless Plug and Socket Cable connectors

The new THS series of screwless socket connectors has retention levers for securing and releasing the wires instead of using screws, and features push-pull connections.

Distributor Plug and Socket Junction Box

A current distributor plug-and-socket junction box has also added to our offerings. This connector allows the creation of branches in parallel, replacing the traditional junction box. It consist of a central block with compact dimensions and considerable smaller overall dimension than the junction boxes of the same polarity.

Screwless Parallel Connectors

Screwless parallel connectors are now available. These are designed to efficiently connect to a common point, and secure electrical wires without tools. These connectors allow for easy installation and maintenance, safety and economy of space. The transparent housing makes it easy to inspect the connections.

Features and Specifications:

- 2, 3 and 5 wire versions
- Accommodates solid & stranded copper wire 24 - 12 AWG
- **Maximum rated voltage:** 600V (AC/DC)
- **Maximum rated current:** 30A
- **Approvals:** cULus

Metal Enclosures for Disconnect Switches

sontheimer

New enclosure options for most of popular Sontheimer RLO and RLT disconnect switches are now available.

Features and specifications:

- Stainless steel or mild steel options
- Padlockable handle to prevent unauthorized use
- 3 Enclosure sizes depending on size of switch
- 3, 4, and 6 pole versions available
- Auxiliary and neutral contact blocks available
- **Protection:** IP65, Type 4, 4X
- **Approvals:** UL, CSA

Detas 600V Input Power Supply

This new DIN Rail mounted power supply features 350-600VAC input and 960W power (2-phase).

Features and specifications:

- Wide operating range input voltage 2/3 phases 320 - 600 VAC
- Compact size (only 110mm wide)
- Can be connected in parallel to increase power, or for redundancy
- Fault warning function
- Approvals: cULus Listed

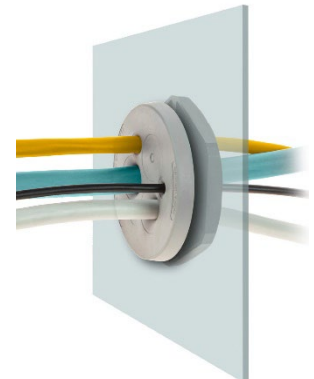

DetasUltra Cable Entry System

ITC has greatly expanded our DETASULTRA offerings of Cable Entry Systems.

A few of the new products include:

- Cable entry plates
- Round cable entry plates
- FDA / Hygienic frames and entry plates
- Wide range of new grommets
- Split locknuts
