

# Screwless Parallel Connectors

Screwless parallel connectors are designed to efficiently connect to a common point, and secure electrical wires, without tools. They allow for ease of installation and maintenance, safety and economy of space. The transparent housing makes it easy to inspect the connection.

Easy to use - pull the lever up, insert a wire and push the lever back down.

## Features and Specifications

- Accomodates solid and stranded copper wires 24-12 AWG (with/without ferrules)
- Strip length: 13mm
- Can insert solid wire without opening levers - Push-in
- Test point on back
- Maximum rated voltage: 600V (AC/DC)
- Maximum rated current: 30A
- Operating temperature: -20 to 100°C (-4 to 212°F)
- Insulation materials: Polycarbonate UL 94V2
- Approvals: cULus

## Screwless Connectors (Order by Part No.)

Part No.	Number of connections	Weight (g)	Dimensions (HxWxD) (mm)	Pack
754.002	2 wires	2.2	11 x 13 x 21	100
754.003	3 wires	3.2	11 x 19 x 21	50
754.005	5 wires	5.2	11 x 30 x 21	25
